Copy. An additional resource might also include DEMA, which can possibly address all 15 Counties, since the requestor is looking at the County-level aspect.

Lt. Douglas Hanna #1258

Subject: FW: SAR research project/ interview request

Before I reply to this guy I wanted to make sure you were aware of the request. I will initially refer him to Border Patrol as they are the responsible SAR asset when it comes to immigration. If he wants more information I will have Deputy Ramirez coordinate that.

Sergeant Stephen Ferree #5426
Pima County Sheriff's Department
Search and Rescue Supervisor

Subject: Re: SAR research project/ interview request

Deputy Ramirez,

I work with No More Deaths, a humanitarian aid organization based here in Tucson. We are currently working on a research project about Search and Rescue efforts in southern Arizona. We would like to better understand the steps taken in an effective and robust Search and Rescue or recovery response in this region at the county level- what the process looks like from beginning to end, what resources are utilized, etc.

We would love to schedule an in-person interview with you (or any SAR coordinator working in Pima County, if there are several). Let me know if this is possible.

I can be reached at this email address or at 540-██████████. I look forward to hearing from you!

Best,
Parker Deighan

Hi Parker,

Yes, I've copied Deputy Ramirez on this reply.

Best,

John

Thanks for the response, John - do you have the contact info for someone at the Sheriff's department you recommend I reach out to?

Best,

Parker

Hi Parker,

Thanks for you inquiry.

SARA is an all volunteer group that is called out by the Pima County

Sheriff's Department. Your best bet would be to speak first with members of the Department's SAR coordinators. It is they who decide when and how to use SARA as a resource.

Best,

John

Hi there,

I work with No More Deaths, a humanitarian aid organization based here in Tucson. We are currently working on a research project about Search and Rescue efforts in southern Arizona. SARA has come up repeatedly in our research into county SAR efforts. We would like to better understand the actions taken in an effective and robust Search and Rescue or recovery response in this region- what the process looks like from beginning to end, what resources are utilized, etc.

We would love to schedule an in-person interview with a SAR coordinator with your organization or a long-term volunteer if possible. I can be reached at this email address or by phone at 540-[REDACTED].

I look forward to hearing from you!
Thanks for your work,
Parker
